SUMMARY

Data Analyst with hands-on experience in SQL, Python, and Power BI, with a background in data quality, catalog management, and analytical reporting. Delivered measurable improvements in data accuracy at Collabera Digital. Skilled at transforming raw data into actionable insights through dashboards, pipelines, and structured analysis.

TECHNICAL SKILLS

Languages & Query: Python (Pandas, NumPy), SQL (BigQuery, MySQL)

Visualization: Power BI, Excel (Pivot Tables, VLOOKUP, Charts, Power Query)

Data Concepts: Data Cleaning, ETL Concepts, Data Pipelines, Data Governance

ML & AI: Machine Learning basics, Deep Learning concepts, LLM (Exposure)

Tools & Cloud: Azure, Linux, Git

PROFESSIONAL EXPERIENCE

Catalog Specialist-I

Amazon | 10/2024 - 02/2025 (Contract Based)

- Maintained and audited large product datasets across platforms, ensuring consistency and accuracy at scale.
- Used SQL and Excel to identify and resolve data discrepancies, improving overall data quality by 20%.
- Collaborated cross-functionally to enforce data governance standards and deliver regular reporting insights.

PROJECTS

E-Commerce Sales Analysis · SQL, BigQuery, Power BI

- Analyzed transactional data using SQL in BigQuery; built complex joins and aggregations to surface key business metrics.
- Created Power BI dashboards to track sales trends, customer behavior, and revenue KPIs for stakeholder reporting.

HR Attrition Analysis · Python, SQL, Excel, Power BI

- Analyzed IBM HR dataset (1,470 records) using SQL and Python to identify key attrition drivers across departments, roles, and demographics.
- Built a 7-sheet Excel workbook and an interactive Power BI dashboard with DAX measures and HR-specific slicers for self-service reporting.

Customer Churn Prediction · Python, SQL, Excel, Power BI

- Analyzed Telco dataset (7,043 customers) using SQL and Python to identify churn drivers; flagged month-to-month contracts as the highest-risk segment.
- Built end-to-end pipeline: SQL risk-scoring queries, Python EDA, Excel KPI dashboard, and Power BI report flagging 800+ high-risk retained customers.

VIRTUAL EXPERIENCE

Tata Data Visualization: Empowering Business with Effective Insights Simulation on Forage - Feb 2026

- Completed a simulation involving creating data visualizations for Tata Consultancy Services
- Prepared questions for a meeting with client senior leadership
- Created visuals for data analysis to help executives with effective decision making
